- **Budget – Funding for state-certified domestic violence centers FY 2016 Amended & FY 2017:** The Governor has released his proposed FY 2016 Amended and FY 2017 budgets, both of which include level state funding for state-certified domestic violence centers and state-funded sexual assault centers. The Governor’s proposed FY 2017 budget also includes an increase of \$193,125 for grants for civil legal services to victims of domestic violence, administered by the Administrative Office of the Courts.

On January 27, the House passed its FY 2016 Amended appropriations bill – including the level domestic violence and sexual assault funding proposed by the Governor – and sent it along to the Senate for further deliberation by the Senate Appropriations Committee. The House Appropriations Committee will now begin deliberating on the Governor’s FY 2017 budget proposal. The House and Senate Appropriations Committees will likely form a conference committee to negotiate and draw up a final set of recommendations for each budget.
